Please provide any feedback on the proposed amendments to the *Professional Practice Standards*.

I am very glad to see the proposed changes to affirm gender/sexual identity and explicitly prohibit the practice of "conversion therapy" and any other inappropriate practices that seek to change someone's sexual or gender identity. While it was implied, I was not clear that doing so would be regarded as professional misconduct and could result in disciplinary measures – I am recommending it be considered as so and that appropriate disciplinary measures are in place. I think the wording should be explicit and phrasing like "strongly discouraged" should be avoided - I feel this implies that while it's undesirable, there may be cases where it is acceptable - where as the message should be this is absolutely an unacceptable practice from psychotherapists and will result in disciplinary measures. Thank-you for taking a stand on such an important human rights issue, this step makes me proud to be a member of a profession that unequivocally supports the rights and dignity of all human beings, and are allies to the LGBTQ+ community. As a counsellor who works in a team environment, I also support the changes related to confidentiality and feel this is critical to providing stream-lined care for our clients.
