Introduction

The College Performance Measurement Framework (CPMF)

The CPMF has been developed by the Ontario Ministry of Health (the ministry) in close collaboration with Ontario’s health regulatory Colleges (Colleges), subject matter experts and the public with the aim of answering the question “how well are Colleges executing their mandate which is to act in the public interest?” This information will:

1. Strengthen accountability and oversight of Ontario’s health regulatory Colleges;
2. Help Colleges improve their performance;

Each College will report on seven Domains with the support of six components, as illustrated in Table 1.

Table 1: CPMF Measurement Domains and Components

1	Measurement domains	→ Critical attributes of an excellent health regulator in Ontario that should be measured for the purpose of the CPMF.
2	Standards	→ Performance-based activities that a College is expected to achieve and against which a College will be measured.
3	Measures	→ More specific requirements to demonstrate and enable the assessment of how a College achieves a Standard.
4	Evidence	→ Decisions, activities, processes, or the quantifiable results that are being used to demonstrate and assess a College’s achievement of a standard.
5	Context measures	→ Statistical data Colleges report that will provide helpful context about a College’s performance related to a standard.
6	Planned improvement actions	→ Initiatives a College commits to implement over the next reporting period to improve its performance on one or more standards, where appropriate.

CPMF Model

The seven measurement domains shown in Figure 1 are the critical attributes that contribute to a College effectively serving and protecting the public interest. They relate to key statutory functions and organizational aspects that enable a College to carry out its functions well. The seven domains are interdependent and together lead to the outcomes that a College is expected to achieve as an excellent regulator.

Figure 1: CPMF Model for Measuring Regulatory Excellence

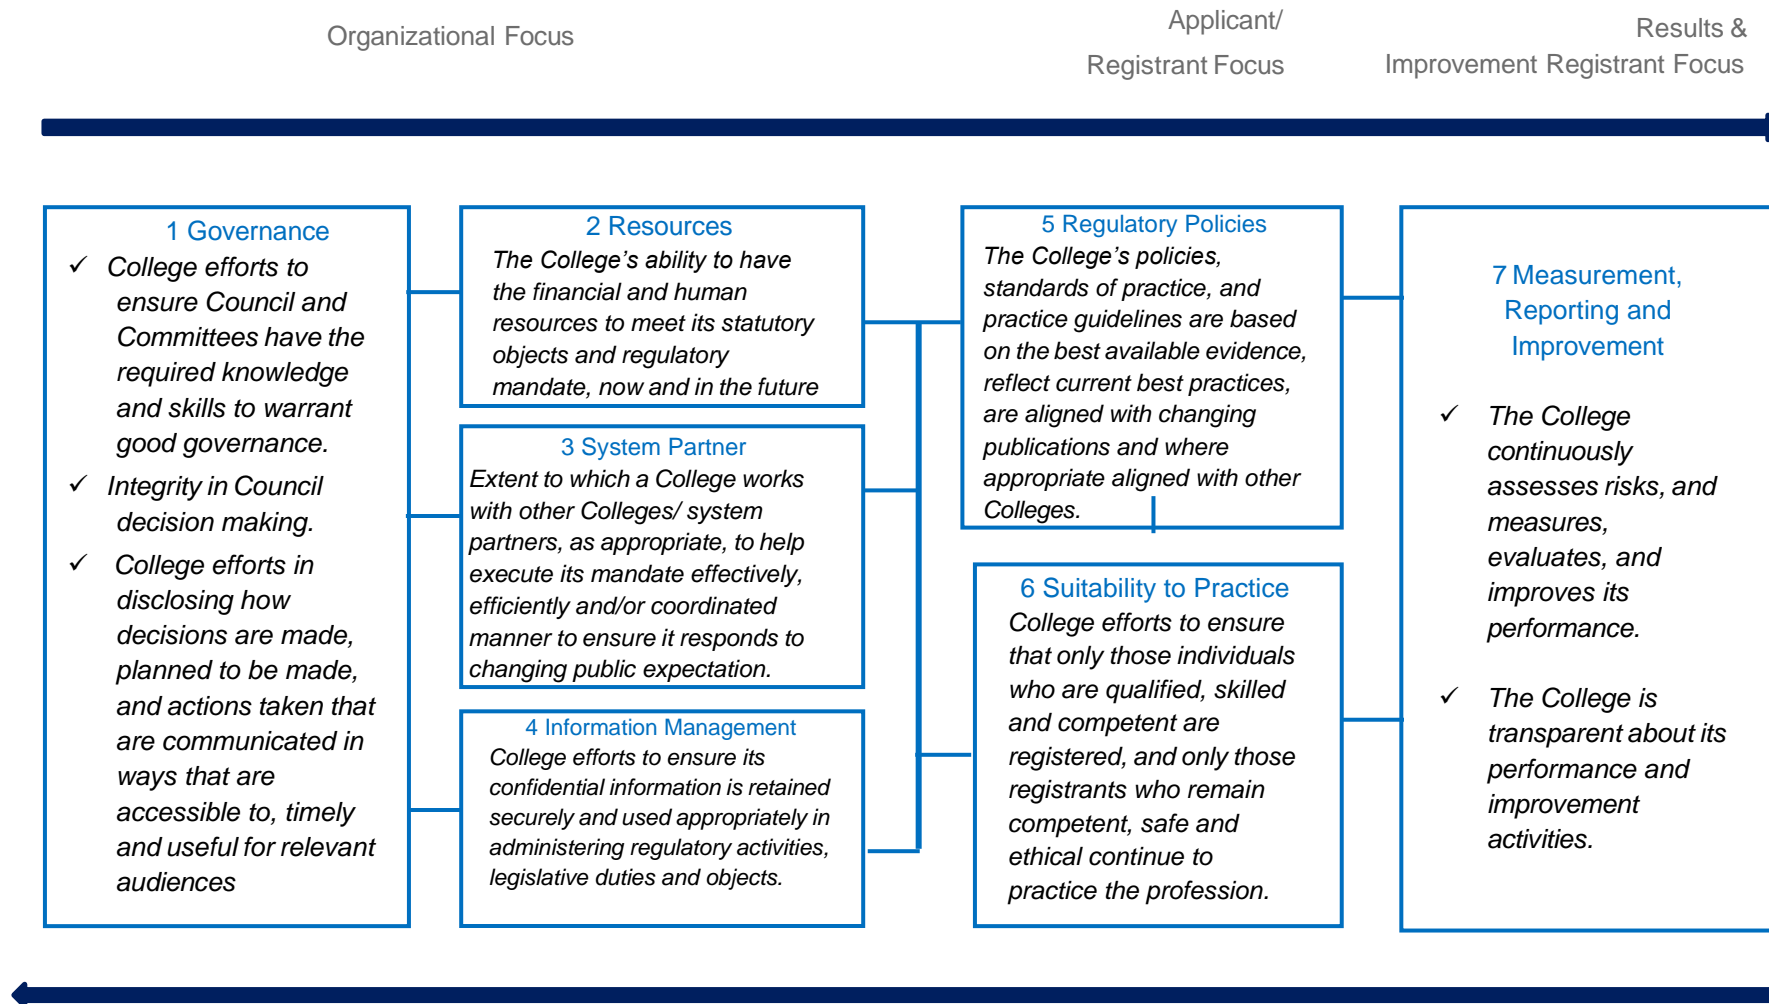

Figure 2: CPMF Domains and Standards

Domains	Standards
Governance	1. Council and statutory committee members have the knowledge, skills, and commitment needed to effectively execute their fiduciary role and responsibilities pertaining to the mandate of the College.
	2. Council decisions are made in the public interest.
	3. The College acts to foster public trust through transparency about decisions made and actions taken.
Resources	4. The College is a responsible steward of its (financial and human) resources.
System Partner	5. The College actively engages with other health regulatory Colleges and system partners to align oversight of the practice of the profession and support execution of its mandate.
	6. The College maintains cooperative and collaborative relationships responds in a timely and effective manner to changing public expectations.
Information Management	7. Information collected by the College is protected from unauthorized disclosure.
Regulatory Policies	8. Policies, standards of practice, and practice guidelines are based in the best available evidence, reflect current best practices, are aligned with changing public expectations, and where appropriate aligned with other Colleges.
Suitability to Practice	9. The College has processes and procedures in place to assess the competency, safety, and ethics of the people it registers.
	10. The College ensures the continued competence of all active registrants through its Quality Assurance processes. This includes an assessment of their competency, professionalism, ethical practice, and quality of care.
	11. The complaints process is accessible and supportive.
	12. All complaints, reports, and investigations are prioritized based on public risk, and conducted in a timely manner with necessary actions to protect the public.
	13. The College complaints process is coordinated and integrated.
Measurement, Reporting and Improvement	14. The College monitors, reports on, and improves its performance.

The CPMF Reporting Tool

The third iteration of the CPMF will continue to provide the public, the ministry, and other stakeholders with information respecting a College's activities and processes regarding best practices of regulatory excellence and, where relevant, the College's performance improvement commitments. At this time, the ministry will not assess whether a College meets or does not meet the Standards.

The information reported through the completed CPMF Reporting Tool may help to identify areas of improvement that warrant closer attention and potential follow-up. Furthermore, the reported results will help to lay a foundation upon which expectations for regulatory excellence can be refined and improved. Finally, the results may stimulate discussions about regulatory excellence and performance improvement among Council members and staff within a College, as well as between Colleges, the public, the ministry, college registrants/members, and other stakeholders.

Additionally, in 2022 the ministry developed a Summary Report highlighting key findings regarding the commendable practices Colleges already have in place, collective strengths, areas for improvement and the various commitments Colleges have made to improve their performance in serving and protecting the public as per their 2021 CPMF Reports. The focus of the Summary Report is on the performance of the regulatory system (as opposed to the performance of each individual College) and on areas where opportunities exist for colleges to learn from each other.

The ministry's Summary Report will be posted in English and French and weblinks to the report will be shared with the Colleges once it is published. For this reporting cycle, Colleges will be asked to report on:

- Their performance against the CPMF standards and updates on the improvements Colleges committed to undertake in their previous CPMF reports;
- Provide detailed improvement plans where they do not fully meet a benchmarked Evidence.

Completing the CPMF Reporting Tool

While the CPMF Reporting Tool seeks to clarify the information requested, it is not intended to direct College activities and processes or restrict the way a College fulfills its fiduciary duties. Where a term or concept is not explicitly defined in the CPMF Reporting Tool, the ministry relies on individual Colleges, as subject matter experts, to determine how a term should be appropriately interpreted given the uniqueness of the profession each College oversees.

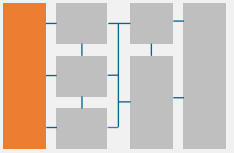

In the spirit of continuous improvement, if the College plans to improve its actions or processes related to a respective Measure or Evidence, it is encouraged to highlight these planned activities and progress made on commitments from previous years.

What has changed in 2022?

This year, eight pieces of Evidence have been highlighted within Part 1 of the Reporting Tool as 'Benchmarked Evidence'. These pieces of evidence were identified as attributes of an excellent regulator, and Colleges should meet, or work towards meeting these benchmarks. If a College does not meet, or partially meets expectations on a benchmark, it is required to provide an improvement plan that includes the steps it will follow, timelines and any barriers to implementing that benchmark. In subsequent CPMF reports, Colleges will be expected to report on their progress in meeting the benchmarked Evidence.

Where a College fully met Evidence in 2021 and 2022, the College may opt to respond with 'Met in 2021 and Continues to Meet in 2022'. In the instances where this is appropriate, this option appears in the dropdown menu. If that option is not there, Colleges are asked to fully respond to the Evidence or Standard. Colleges are also asked to provide additional detail (e.g., page numbers), when linking to, or referencing College documents.

The orientation training is comprised of a one-hour webinar (also available in other formats – see below) and self-study at the candidate's own pace to prepare for the competency questionnaire (knowledge test) prior to submitting their nomination. CRPO is committed to removing barriers for RPs who wish to contribute to the work of Council while ensuring that anyone standing for election meets competence and suitability criteria. Accordingly, the College developed multiple ways for interested RPs to complete the required orientation training. These include a live webinar presented by staff and two current Council members (presented in March 2022) as well as materials in audio, video and print format. After accessing the information from one of these sources, any RP who wishes to stand for election must complete and submit a questionnaire that tests their knowledge of the concepts presented. • Please insert a link and indicate the page number if training topics are public OR list orientation training topics. • written materials in accessible format • narrated video • CRPO Pre-candidacy Questionnaire

Regulatory objectives are specific and measurable efforts needed to achieve the goal of public protection dictated by the RHPA. Establishing and communicating regulatory objectives allows a regulator to demonstrate how the work they do is in the public interest. Stated objectives also support accountability within a right-touch approach: if an initiative cannot be measured against one of the objectives, it likely should not be undertaken. These objectives reviewed and validated in September 2022 and so continue to be used as the basis for ensuring that decisions are made in the public interest. In addition, Council adopted a briefing note template that includes an opening statement as to the public interest rationale of every item and decision being contemplated. This template is used for all Council meeting agenda items and is included in publicly posted material.</p> Please insert a link to Council meeting materials that include an example of how the College references a public interest rationale and indicate the page number. Every issue brought to Council meetings is introduced by a briefing note that explicitly outlines the public interest rationale. This proto group developed terms of reference and participated, along with members of the Nominations and Elections Committee, in recruiting and recommending 15 RPs to be appointed to the DEI WG.</p> <p>CRPO’s Council is operating on the principle that a reliable and relevant way of soliciting and integrating perspectives of communities that face individual and systemic discrimination, barriers and inequities is needed for any relevant DEI plan. DOMAIN 3: SYSTEM PARTNER

STANDARD 5 and STANDARD 6

<p>Measure / Required evidence: N/A</p>	<p>College response</p> <p><i>Colleges are requested to provide a narrative that highlights their organization’s best practices for the following two standards. An exhaustive list of interactions with every system partner that the College engaged with is not required.</i></p> <p><i>Colleges may wish to provide information that includes their key activities and outcomes for each best practice discussed with the ministry, or examples of system partnership that, while not specifically discussed, a College may wish to highlight as a result of dialogue.</i></p>
<p>The two standards under this domain are not assessed based on measures and evidence like other domains, as there is no ‘best practice’ regarding the execution of these two standards.</p> <p>Instead, <u>Colleges will report on key activities, outcomes, and next steps that have emerged through a dialogue with the ministry.</u></p> <p>Beyond discussing what Colleges have done, the dialogue might also identify other potential areas for alignment with other Colleges and system partners.</p>	<p>Standard 5: The College actively engages with other health regulatory colleges and system partners to align oversight of the practice of the profession and support execution of its mandate.</p> <p>Recognizing that a College determines entry to practice for the profession it governs, and that it sets ongoing standards of practice for the profession it regulates and that the profession has multiple layers of oversight (e.g. by employers, different legislation, etc.), Standard 5 captures how the College works with other health regulatory colleges and other system partners to support and strengthen alignment of practice expectations, discipline processes, and quality improvement across all parts of the health system where the profession practices. In particular, a College is asked to report on:</p> <ul style="list-style-type: none"> • <i>How it has engaged other health regulatory Colleges and other system partners to strengthen the execution of its oversight mandate and aligned practice expectations? Please provide details of initiatives undertaken, how engagement has shaped the outcome of the policy/program and identify the specific changes implemented at the College (e.g., joint standards of practice, common expectations in workplace settings, communications, policies, guidance, website, etc.).</i> <p>CRPO strives for active engagement with other health regulatory colleges and system partners. The strategic plan developed by the College identified collaboration with system partners to contribute to better access to mental health services as a priority. Accordingly, over the course of 2022, CRPO worked to build on existing relationships among other regulatory and system partners to advance collective best practices and advocate for changes that will strengthen regulated health professions and improve public access and experience with mental health services.</p> <p>Health Profession Regulators of Ontario (HRPO) CRPO collaborates with and learns from other Ontario health regulatory colleges through HPRO. Specific engagement with HPRO included:</p> <ul style="list-style-type: none"> - Membership in the Citizen Advisory Group – allowing access to consultations with an engaged and informed group of public representatives - Staff membership in regulatory practice groups (corporate services, registration, quality assurance, communications) - Staff membership in HPRO Investigations & Hearings network – allowing access to listserv resources and information sharing and meetings - Registrar attendance at HPRO Board and bi-weekly check in meetings

- Registrar member of HPRO Anti-BIOPC racism project steering committee
- Staff attendance at CPMF working group meetings
- Collaboration with other colleges whose registrants use applied behaviour analysis in their practice and may be affected by the decision to create a protected title for ABA practitioners
 - o **Outcome: the ability to leverage work that was being done by other colleges through HPRO with the goal of incorporating best practices and increasing consistency in core regulatory functions.**

Pan Canadian Psychotherapy Regulators Group The Registrar chairs this group, which includes registrars from other regulated provinces and representatives from associations working toward regulation in yet-to-be-regulated provinces. Specific engagement included:

- Collaboration with the [Canadian Counselling and Psychotherapy Association](#) to support efforts toward regulation in unregulated provinces
- CRPO staff providing consultations on ‘lessons learned’ from the grandparenting process
- Sharing of governance and core regulatory policies and resources
- Completion of a comprehensive comparison of the entry-to-practice competency frameworks used across the country with a view to a shared review and revision effort in fiscal 2023 - 2024
 - o **Outcome: increased confidence in future labour mobility applications from newly regulated and yet-to-be regulated provinces.**

Professional Associations

Staff and Council President hosted an annual meeting to update representatives of all psychotherapy professional associations

Quarterly updates with representative from the [Partnership of Registered Psychotherapist Associations](#) and [Ontario Society of Registered Psychotherapists](#) and [Ontario Association of Mental Health Professionals \(OAMHP\)](#)

- o **Outcome: increased awareness of CRPO’s areas of focus, allowing associations them to better support members of the profession**

Staff presented at the annual association conference for the OAMHP, annual association conference for the Canadian Association of Marriage and Family Therapy, and at an education day for pastoral counsellors

- o **Outcome: increased awareness of CRPO’s areas of focus and regulatory specific professional development for attendees**

Cooperative efforts with the [Ontario Association of Mental Health Professionals](#). Specific engagement included:

- delivery of monthly [Peer Circles](#) to support registrants in being better able to make judgement about how to meet the standards of practice related to consent, confidentiality and information sharing
- provided review of validated supervisor training under development by OAMHP
 - o **Outcome: supported registrants in applying standards of practice and quality and availability of regulatory professional development offerings**

Psychotherapy Education and Training Programs

Staff and the Registration Committee Chair hosted an annual meeting to update representatives of all psychotherapy education programs

Staff made 10 presentations for education programs, reaching over 788 students at 8 schools

- **Outcomes: Students provided with direct access to CRPO staff; strengthened understanding of the clinical experience component of programs, providing support to students pre-application; programs aware of standards update, able to provide input**

Government agencies

Office of the Coroner - Staff received and responded to report, planning specific advice to registrants directions on continuing education requirements

- **Outcome: will support RPs' awareness of their duty to report children in need of protection.**

Canadian Institute for Health Information - Staff met with CIHI staff and agreed to provide aggregate data regarding registered practitioners.

- **Outcome: CRPO now providing comparable and actionable data to CIHI to make available to its stakeholders for the purpose of improving health system performance.**

Controlled Substances Directorate Health Canada – Staff met with the Director General and their team to discuss the status of psychedelic assisted psychotherapy research and regulation.

- **Outcome: CRPO better informed about this emerging modality and more prepared to provide appropriate guidance to registrants**

Standard 6: The College maintains cooperative and collaborative relationships and responds in a timely and effective manner to changing public/societal expectations.

The intent of Standard 6 is to demonstrate that a College has formed the necessary relationships with system partners to ensure that it receives and contributes information about relevant changes to public expectations. This could include both relationships where the College is asked to provide information by system partners, or where the College proactively seeks information in a timely manner.

- *Please provide examples of key successes and achievements from the reporting year where the College engaged with partners, including patients/public to ensure it can respond to changing public/societal expectations (e.g., COVID-19 Pandemic, mental health, labor mobility etc.). Please also describe the matters that were discussed with each of these partners and how the information that the College obtained/provided was used to ensure the College could respond to a public/societal expectation.*
- *In addition to the partners it regularly interacts with, the College is asked to include information about how it identifies relevant system partners, maintains relationships so that the College is able access relevant information from partners in a timely manner, and leverages the information obtained to respond (specific examples of when and how a College responded is requested in Standard 6).*

Health Profession Regulators of Ontario (HRPO) as noted in standard 5, CRPO’s engagement with HPRO supports the development and maintenance of relationships with other colleges and stakeholders such as the Office of the Fairness Commissioner (OFC), the Ministry of Health, and the Financial Services Regulator - FSRA, who all use HPRO as a central conduit for sharing information.

Membership in the Citizen Advisory Group (CAG), in particular, allows CRPO direct access to consultations with an engaged and informed group of public representatives.

- **Outcome: Carried out CAG consultations on two draft revised practice standards, on Unnecessary Treatment and The Complaints Process, receiving valuable perspectives from members of the public that will inform revisions to these standards.**
- **Psychotherapy Education and Training Programs** CRPO maintains an active relationship with education and training programs, particularly the 28 [recognized / accepted programs](#), in order to regularly exchange information and address issues such as scope of practice in clinical experience placements. **Outcome: CRPO has access to timely information about issues faced by individuals seeking to enter the profession, informing registration related policy development and amendment (e.g., [Clinical experience recognition](#), [Clinical Experience for Registration Policy](#))**

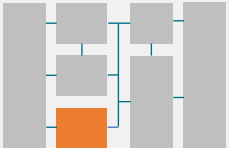

Professional Associations regular engagement with representatives from professional associations allows the regular exchange of information

- **Outcome: CRPO is aware of advocacy efforts and RP concerns and can provide useful information in timely communiques**

Targeted consultations between September and December 2022 staff consulted with approximately 10 RP subject-matter experts, one law professor, one non-profit organization, three professional associations and the other psychotherapy-practising colleges regarding draft revised Professional Practice Standards and the Jurisprudence Manual.

- **Outcome: CRPO is better able to incorporate diversity of perspective and relevant best practices into the review and revision of the Professional Practice Standards.**

		<ul style="list-style-type: none"> Please briefly describe how the College reviews its policies, guidelines, standards and Code of Ethics to ensure that they promote Diversity, Equity and Inclusion. CRPO works with Regulatory Objectives are used to define specific and measurable efforts needed to achieve the goal of public protection. The objectives include promoting equity, diversity and inclusion in the provision of psychotherapy services in the following ways: <ul style="list-style-type: none"> Objective #4 Promote equity, diversity and inclusion in the provision of psychotherapy services Discrimination that persists in the provision of health care and social services in Ontario creates barriers to access to mental health care. In particular, these biases can negatively affect individuals from racialized communities, those with low-income, the elderly, members of the LGBTQ community and those with mental illness. By engaging with the public, registrants and other stakeholders, CRPO works toward freedom from discrimination through the promotion of diversity and inclusivity in psychotherapy education and practice. Holding RPs to standards that respect the diversity and dignity of all persons ensures that they can competently and respectfully serve individuals and families from across the diverse spectrum of age, race, culture, background, sexual orientation and gender identity. Objective #5 Regulate to support the mental health system in being more accessible There is an increasing acknowledgment of the difficulties that many Ontarians face in accessing needed mental health services. CRPO is aware that barriers to access to care with RPs exist across the province for a variety of reasons. When considered in relation to ability to receive needed mental health services, the importance of the psychotherapeutic relationship and the benefits of continuity of care, these barriers constitute a risk of harm to the public. By effectively regulating RPs, CRPO ensures that qualified individuals are authorized and available to practice, that they maintain their competence and that any issues with competence or conduct are addressed promptly and appropriately. This allows stakeholders in the health care system to be confident in the quality of care provided by RPs and supports leveraging the growing number of RPs within the system broadly, resulting in improved access to appropriate continuity of care with providers and in the setting of choice. Please highlight some examples of policies, guidelines, standards or the Code of Ethics where Diversity, Equity and Inclusion are reflected. CRPO's Code of Ethics calls on registrants to "to respect the privacy, rights and diversity of all persons; to reject all forms of harassment and abuse; and to maintain appropriate therapeutic boundaries at all times." Professional Practice Standard 3.7 Affirming Sexual Orientation and Gender Identity establishes the requirement that registrants have adequate training, experience and supervision to provide services relating to an individual's sexual orientation or gender identity.

			<p><i>Additional comments for clarification (optional)</i></p> <p>CRPO is actively involved in the work of the Health Profession Regulators of Ontario (HPRO) as it develops supports for Colleges to advance their work in Diversity, Equity and Inclusion within policies, guidelines, standards, etc. The Registrar is a member of the HPRO Anti-Racism in Health Regulation project steering committee. This project has provided valuable information for the College to use in ensuring that the principles and values of DEI are reflected in the care provided by the registrants of the College. Specifically, the September 2021 report commissioned by HPRO from Dr. Javeed Sukhera recommended that regulators should critically appraise existing policies, including an inclusive approach to policy design with input from stakeholders who are members of equity-deserving communities.</p> <p>Current HPRO project activities are designed to provide a set of guiding indicators and support tools that our College’s DEI WG will use in the next reporting period to ensure we apply a DEI lens in reviewing, developing and amending our practices, prioritized according to our particular needs. 9.2 Registrants continuously demonstrate they are competent and practice safely and ethically.

c. A risk-based approach is used to ensure that currency² and other competency requirements are monitored and regularly validated (e.g., procedures are in place to verify good character, continuing education, practice hours requirements etc.).

The College fulfills this requirement:

Yes

- Please briefly describe the currency and competency requirements registrants are required to meet.

Registrants in the Registered Psychotherapist category are required to maintain 750 [currency hours of broadly defined activities related to psychotherapy](#) on a rolling three-year basis.

Inactive registrants also need to be mindful of their currency hours. If an Inactive registrant is short of 750 currency hours in the three years prior to requesting to return to active practice, their request may be referred to the Registration Committee.

Registrants who have completed fewer than 750 currency hours in the previous three calendar years may be required to complete upgrading activities or undergo a peer and practice assessment.

- Please briefly describe how the College identified currency and competency requirements.

The currency requirement for Registered Psychotherapists is set out in section [8\(1\)\(2\) of the Registration Regulation](#). The 750 hour figure is based on extensive consideration by the Council regarding the minimum amount of practice necessary to maintain current competence in the profession. This reflects an average of less than five hours of practice (broadly defined) per week over three years. The College also considered the number of hours used for similar purposes by other professions with an analogous scope and complexity of practice and found that 750 hours over three years tended to be at the lower end of the range. Since the 750 hour requirement is on a rolling three year basis, if a registrant is short on hours one year they could make up the difference in the other two years. If a registrant is short on currency over the three year period, the Registrar can grant exceptions in exceptional circumstances if the registrant has demonstrated they have the knowledge, skill and judgment to practise psychotherapy in a safe and professional manner.

- Please provide the date when currency and competency requirements were last reviewed and updated.

The [Return to Active Practice Policy](#) was approved October 28, 2021. In applying to return to practice, registrants must complete a self-assessment and are encouraged to address any gaps in knowledge of the Professional Practice Standards that the assessment identifies.

			<ul style="list-style-type: none"> Please briefly describe how the College monitors that registrants meet currency and competency requirements (e.g., self-declaration, audits, random audit etc.) and how frequently this is done. <p>The initial application and annual renewal require an applicant/registrant to self-declare that currency and good character requirements are met. A registrant returning to active practice from inactive or revocation is also required to self-declare currency. The requirements are set out in CRPO's Registration Regulation (see sections 4(1)1, 4(2), 5(1), 6(1)(2), 7(2)(1), 8(1)(2), 20(4), 27(a)). Staff verify currency self-declared on the initial application with the applicant's supporting documentation (e.g., transcript). If an applicant/registrant self-declares not meeting the currency requirement, staff request further information and/or documentation for currency they do have. If an applicant/registrant makes a disclosure in response to good character questions, staff request further information, contact third parties, and/or request a criminal record check depending on the disclosure.</p>

Measure:
10.2 The College effectively administers the assessment component(s) of its QA Program in a manner that is aligned with right touch regulation³.

a. The College has processes and policies in place outlining:
 i. how areas of practice that are evaluated in QA assessments are identified in order to ensure the most impact on the quality of a registrant’s practice;

The College fulfills this requirement: Yes

- Please list the College’s priority areas of focus for QA assessment and briefly describe how they have been identified **OR** please insert a link to the website where this information can be found and indicate the page number.

The priority areas of focus for the QA assessment are drawn from:

- [Standards Section 1: Professional Conduct](#)
- [Standards Section 3: Client-Therapist Relationship](#)
- [Standards Section 2: Competence](#)

The specific areas of risk within these standards were reviewed by the Quality Assurance Committee using a risk register (risk frequency and risk severity) based on data as described below.

Risk frequency is based on how often the issue arises within:

- College committees (e.g., complaints, applications for registration)
- Practice advisory inquiries
- Stakeholder input (e.g., reports of ‘horizon’ issues or emerging risks)

Risk severity is determined by reviewing:

- Significance of outcomes (e.g., referring complaints to the Discipline Committee, refusing applications for registration)
- The priorities of stakeholders (e.g., the public, government, registrants, Council and committees)

The risk areas were used to develop a blueprint for the new Case Based Assessment (CBA). Registrants completing the CBA are presented with proportionally more cases corresponding to “high-risk” Practice Standards.

Standard	Weight (%)	Number of cases selected
Section 1: Professional Conduct	29	10
Section 2: Competence	20	4
Section 3: Client-Therapist Relationship	21	6

³ “Right touch” regulation is an approach to regulatory oversight that applies the minimal amount of regulatory force required to achieve a desired outcome. (Professional Standards Authority Right Touch Regulation. <https://www.professionalstandards.org.uk/publications/right-touch-regulation>).

		<p>ii. details of how the College uses a right touch, evidence informed approach to determine which registrants will undergo an assessment activity (and which type of multiple assessment activities); and</p>	<p>The College fulfills this requirement:</p> <ul style="list-style-type: none"> Please insert a link to document(s) outlining details of right touch approach and evidence used (e.g., data, literature, expert panel) to inform assessment approach and indicate page number(s). OR please briefly describe right touch approach and evidence used. <p>The right-touch, risk-based approach directs that College and registrant resources be used in a way that is most likely to mitigate the risk of harm to the public without creating undue burden on the profession. As such, a case based assessment (CBA) has been developed and will be used to allow registrants to participate in a screening process to determine if their knowledge and understanding of the Professional Practice Standards is adequate for safe, effective, and ethical practice. The CBA screening will be required of registrants once every five years and will provide detailed feedback to assist them in determining if and how professional development activities should be used to take advantage of opportunities to develop their competence.</p> <p>CRPO worked with experts from Martek Assessments to create the plan and undertake the development work for the QA approach. The first phase of the process was to have the QAC participate in a workshop to:</p> <ul style="list-style-type: none"> review best practices related to the assessment of ongoing competence identify potential factors that could undermine the validity of the processes and any remediation decisions made based on the assessment model identify a path to enhance the fairness, defensibility and sustainability of the assessment process determine how to provide more meaningful QA opportunities for registrants, while ensuring that College resources are appropriately focused on RPs who have been identified as having gaps in their knowledge, skills or judgement <p>Over the course of the development of the CBA, 45 contracted RPs were involved as case writers, case developers, and answer sequencers. Eight professional and 3 publicly appointed members of the Quality Assurance Committee were involved in reviewing risk, approving case weighting and program policies. This approach ensured that the assessment being developed is informed by the perspectives of a diverse group of professionals representing a variety of psychotherapy modalities, communities of practice, and lived experiences.</p> <p>As part of a risk-based approach, it is important that registrants completing the CBA are presented with proportionally more cases corresponding to “high-risk” practice standards. Case weighting – the process of determining the percentage of cases on the assessment that should pertain to each section of the Standards, and on a more granular level, to each specific Practice Standard – was used to develop a blueprint that will ensure that the assessment is focused on appropriate Practice Standards. This approach (outlined above), which looks at risk frequency and risk severity, was applied to determine which Standards represent a higher risk of being breached.</p>	Yes

			<i>Additional comments for clarification (optional)</i> <p>During this reporting period, CRPO undertook a complete overhaul of the Quality Assurance Program (QAP) with a view to more effectively administering the assessment components in a manner that is aligned with risk-based, right-touch regulation. Consequently, all related policies, processes and tools were evaluated and revised to be based on the best available evidence, reflect current best practices and be aligned with changing public expectations. The revised policies will be published in q4 fiscal 2022 – 2023, the case-based assessment will be in full operation in May 2023 and the Peer Practice Review and coaching tools will be ready in q3 and q4 fiscal 2023-2024.</p> <p>Over the course of fiscal 2023 – 2024, CRPO will continue to evaluate the process using the results of the approximately 2,000 registrants who will be writing the two assessment sittings (one in May and the other in October). Demographic, practice history and accommodations data will be collected for both sittings and used, along with analysis of the results, to ensure that the program is effectively and fairly assessing risk.</p>

10.3 The College effectively remediates and monitors registrants who demonstrate unsatisfactory knowledge, skills, and judgement.

a. The College tracks the results of remediation activities a registrant is directed to undertake as part of any College committee and assesses whether the registrant subsequently demonstrates the required knowledge, skill and judgement while practicing.

The College fulfills this requirement:

Yes

- Please insert a link to the College’s process for monitoring whether registrant’s complete remediation activities **OR** please briefly describe the process.
CRPO has compliance monitoring staff who are assigned to each registrant who has been directed to undertake remediation activities. Staff work with registrants to ensure that they understand what they have been directed to do, have access to the resources they require (e.g., a College-approved supervisor, professional development courses, etc.). The staff team also provides support to any registrant who requires an [accommodation](#) to complete the requirements.
In this reporting period, staff monitored
 - 55 ICRC cases (28 remained active at year end + 27 closed)
 - 77 Registration Committee cases (52 remained active at year end + 25 closed)
- Please insert a link to the College’s process for determining whether a registrant has demonstrated the knowledge, skills and judgement following remediation **OR** please briefly describe the process.
Compliance staff:
 - monitor remediation milestones (e.g., reports from College-mandated supervisors, successful completion of required courses, etc.) and conduct follow up if milestones are not met
 - report to department managers and Registrar as to progress through required remediationOnce all elements have been completed or at the end of the remediation deadline, a final report is made to the Registrar who relies on the results of each of the required elements to confirm satisfactory completion of remediation activities. In cases where the RP is directed to write a reflection paper, the Registrar refers to the [Reflection Paper Instructions](#) provided by Conduct staff when the committee’s decision is shared with them.
Any registrant not successfully completing an element the prescribed remediation will be reviewed and it is determined whether an undertaking to complete them is required, if an extension is warranted or if the matter should be referred for investigation by the ICRC.

We also offer to send the materials to the person’s new therapist so they can review the documents in a supportive environment. • If a complainant requires accommodation putting their complaint in writing or in a permanent medium, staff will arrange and pay for a contractor to assist. • We do not send sensitive information on Fridays because mental health supports (and staff/investigators) are less accessible over the weekend. • Translation services available for complainant preferred language. • CRPO recently obtained the services of a file sharing platform which allows for secure bi-directional file sharing. This provides a simplified solution for complainants to securely send staff complaint materials. • Designated staff at CRPO manage all formal requests for accommodation to ensure accessible services, information and communication to individuals with disabilities. DOMAIN 6: SUITABILITY TO PRACTICE	STANDARD 13	Measure: 13.1 The College demonstrates that it shares concerns about a registrant with other relevant regulators and external system partners (e.g. law enforcement, government, etc.).		
		a. The College's policy outlining consistent criteria for disclosure and examples of the general circumstances and type of information that has been shared between the College and other relevant system partners, within the legal framework, about concerns with individuals and any results.	The College fulfills this requirement:	Yes
			<ul style="list-style-type: none"> Please insert a link to the policy and indicate page number OR please briefly describe the policy. Where allegations against members received by the College are of a nature that may appear to warrant criminal and/or provincial offence charges, the Reporting Information on Possible Criminal Acts policy directs if and how information will be disclosed to law enforcement. Where a complaint or report involves members of CRPO and the College of Psychologists of Ontario, staff rely on an internal protocol to direct how information is shared. The protocol dictates that the college which received the complaint or report ("Source College") may report information about that complaint or report to the other college ("Other College"). Should the Other College wish to conduct an investigation, the Source College will decide on a case-by-case basis what further information to provide. In cases where there is information received about another regulated health professional which may indicate capacity or other concerns, the College will consider, on a case-by-case basis, whether that information ought to be reported to the relevant regulator. Where the College learns that a member or former member is registered in another jurisdiction, the College will, on a case-by-case basis, inform the other regulator(s) about investigations and/or outcomes of investigations. Please provide an overview of whom the College has shared information with over the past year and the purpose of sharing that information (i.e., general sectors of system partner, such as 'hospital', or 'long-term care home'). In the current reporting period, CRPO shared information with the Ontario College of Social Workers and Social Service Workers to alert them to allegations about an individual who held registration with both regulators.

CRPO is taking a practical approach so that development is contextual and iterative. The KPIs will be drawn from processes that are already in place or that can easily be adopted. Part 2: Context Measures

The following tables require Colleges to provide **statistical data** that will provide helpful context about a College’s performance related to the standards. The context measures are non-directional, which means no conclusions can be drawn from the results in terms of whether they are ‘good’ or ‘bad’ without having a more in-depth understanding of what specifically drives those results.

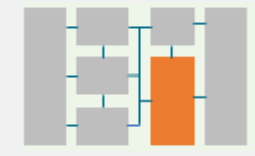

In order to facilitate consistency in reporting, a recommended method to calculate the information is provided in the companion document “Technical Specifications for Quantitative College Performance Measurement Framework Measures.” However, recognizing that at this point in time, the data may not be readily available for each College to calculate the context measure in the recommended manner (e.g., due to differences in definitions), a College can report the information in a manner that is conducive to its data infrastructure and availability.

In those instances where a College does not have the data or the ability to calculate the context measure at this point in time it should state: ‘Nil’ and indicate any plans to collect the data in the future.

Where deemed appropriate, Colleges are encouraged to provide additional information to ensure the context measure is properly contextualized to its unique situation. Finally, where a College chooses to report a context measure using a method other than the recommended method outlined in the following Technical Document, the College is asked to provide the method in order to understand how the information provided was calculated.

The ministry has also included hyperlinks of the definitions to a glossary of terms for easier navigation.

Statistical data collected in accordance with the recommended method or the College's own method: Recommended If a College method is used, please specify the rationale for its use:		
Context Measure (CM)		
CM 1. Type and distribution of QA/QI activities and assessments used in CY 2022*		<p><i>What does this information tell us? Quality assurance (QA) and Quality Improvement (QI) are critical components in ensuring that professionals provide care that is safe, effective, patient-centred and ethical. In addition, health care professionals face a number of ongoing changes that might impact how they practice (e.g., changing roles and responsibilities, changing public expectations, legislative changes).</i></p> <p><i>The information provided here illustrates the diversity of QA activities the College undertook in assessing the competency of its registrants and the QA and QI activities its registrants undertook to maintain competency in CY 2022. The diversity of QA/QI activities and assessments is reflective of a College's risk-based approach in executing its QA program, whereby the frequency of assessment and activities to maintain competency are informed by the risk of a registrant not acting competently. Details of how the College determined the appropriateness of its assessment component of its QA program are described or referenced by the College in Measure 10.2(a) of Standard 10.</i></p>
Type of QA/QI activity or assessment:	#	
i. self-assessment new registrant requirement	2178	
ii. self-assessment QA cycle requirements	2859	
iii. learning plan development	2859	
iv. learning record	2859	
v. Peer and Practice Review Level 1	NR	
vi. Peer and Practice Review Level 2	NR	
vii. Peer and Practice Review Case-based assessment	178	
viii. Peer and Practice Review modified (educational upgrading)	6	

** Registrants may be undergoing multiple QA activities over the course of the reporting period. While future iterations of the CPMF may evolve to capture the different permutations of pathways registrants may undergo as part of a College's QA Program, the requested statistical information recognizes the current limitations in data availability today and is therefore limited to type and distribution of QA/QI activities or assessments used in the reporting period.*

<p><i>Additional comments for clarification (if needed)</i></p> <p>In light of the QA program project enhancement, the QAC deferred random selection of registrants to complete a Peer Practice Review pending the introduction of a risk-based, right-touch approach to identifying which RPs should undergo review. As a result, the committee did not issue directions to complete remedial activities in 2022.</p>

Glossary

Alternative Dispute Resolution (ADR): Means mediation, conciliation, negotiation, or any other means of facilitating the resolution of issues in dispute.

Return to: [Table 5](#)

Contested Discipline Hearing: In a contested hearing, the College and registrant disagree on some or all of the allegations, penalty and/or costs.

Return to: [Table 8](#)

Disposal: The day upon which all relevant decisions were provided to the registrant by the College (i.e., the date the reasons are released and sent to the registrant and complainant, including both liability and penalty decisions, where relevant).

Return to: [Table 5](#), [Table 7](#), [Table 8](#)

Formal Complaint: A statement received by a College in writing or in another acceptable form that contains the information required by the College to initiate an investigation. This excludes complaint inquiries and other interactions with the College that do not result in a formally submitted complaint.

Return to: [Table 4](#), [Table 5](#)

Formal Complaints withdrawn by Registrar at the request of a complainant: Any formal complaint withdrawn by the Registrar prior to any action being taken by a Panel of the ICRC, at the request of the complainant, where the Registrar believed that the withdrawal was in the public interest.

Return to: [Table 5](#)

NR: Non-reportable: Results are not shown due to < 5 cases (for both # and %). This may include 0 reported cases.

Return to: [Table 1](#), [Table 2](#), [Table 3](#), [Table 4](#), [Table 5](#), [Table 6](#), [Table 9](#), [Table 10](#)

Registrar's Investigation: Under s.75(1)(a) of the *Regulated Health Professions Act, 1991*, (RHPA) where a Registrar believes, on reasonable and probable grounds, that a registrant has committed an act of professional misconduct or is incompetent, they can appoint an investigator which must be approved by the Inquiries, Complaints and Reports Committee (ICRC). Section 75(1)(b) of the RHPA, where the ICRC receives information about a member from the Quality Assurance Committee, it may request the Registrar to conduct an investigation. In situations where the Registrar determines that the registrant exposes, or is likely to expose, their patient to harm or injury, the Registrar can appoint an investigator immediately without ICRC approval and must inform the ICRC of the appointment within five days.

Return to: [Table 4](#), [Table 5](#)

Revocation: Of a member or registrant's Certificate of Registration occurs where the discipline or fitness to practice committee of a health regulatory College makes an order to "revoke" the certificate which terminates the registrant's registration with the College and therefore their ability to practice the profession.

Return to: [Table 10](#)

Suspension: A suspension of a registrant's Certificate of Registration occurs for a set period of time during which the registrant is not permitted to:

- Hold themselves out as a person qualified to practice the profession in Ontario, including using restricted titles (e.g., doctor, nurse),
- Practice the profession in Ontario, or
- Perform controlled acts restricted to the profession under the Regulated Health Professions Act, 1991.

Return to: [Table 10](#)

Reprimand: A reprimand is where a registrant is required to attend publicly before a discipline panel of the College to hear the concerns that the panel has with their practice.

Return to: [Table 10](#)

Terms, Conditions and Limitations: On a Certificate of Registration are restrictions placed on a registrant's practice and are part of the Public Register posted on a health regulatory College's website.

Return to: [Table 10](#)

Uncontested Discipline Hearing: In an uncontested hearing, the College reads a statement of facts into the record which is either agreed to or uncontested by the Respondent. Subsequently, the College and the respondent may make a joint submission on penalty and costs or the College may make submissions which are uncontested by the Respondent.

Return to: [Table 8](#)

Undertaking: Is a written promise from a registrant that they will carry out certain activities or meet specified conditions requested by the College committee.
